| 1:100 | After the result of the Trisomy 21 test (with NT) it is expected that among more than 10000 women with the same data, there is one woman with a trisomy 21 pregnancy. | | |
| 1:250 | The calculated risk by PRISCA depends on the accuracy of the information provided by the referring physician. | | |
| 1:1000 | Please note that risk calculations are statistical approaches and have no diagnostic value! | | |
