Recommended Action Plan

Carry Emergency Medication

Due to allergies to Aspergillus fumigatus, Cockroach Dust, Feather Dust, Pine, Argemone Mexicana, always carry epinephrine auto-injector and antihistamines

Food Challenge Test

Consider a supervised food challenge test for Aspergillus fumigatus to confirm the severity of moderate sensitivity.

Consult with Allergist

Schedule an appointment with an allergist for a comprehensive management plan and potentially immunotherapy options.

Nutrition Consultation

Meet with a dietitian to create a balanced meal plan that safely avoids your allergens while maintaining proper nutrition.

Diet and Lifestyle Tips

Avoid exposure to things you might have an allergic reaction to

In case of an allergic reaction, consult your doctor to find out the right medicines to relieve your symptoms.

Get blood tests like allergen specific IgE test done to find out specific things you might be sensitive to.

There are certain treatments like immunotherapy where you are given mild exposure to allergens and then gradually increase to a point where the reaction isn't that bad.
